Paint Cosmetics Makeover, Anyone?

Specially formulated for easy home/do-it-yourself application, Nippon Kirei Anti-Bacterial Emulsion provides ultimate protection to the environment from many types of bacteria. It is a premium environmental friendly emulsion paint that is both lead-and mercury-free and has extremely low VOC. Ideal for interior use in homes, schools, hospitals, clinic, shopping centres, restaurants and food preparation areas.

That is the theme of the new Nippon Kirei Anti-Bacterial Emulsion launched by Nippon Paint Hongkong in November 2002. Available in a wide array of unlimited vibrant colours through specialised computerized colour matching system, Nippon Kirei Anti-Bacterial Emulsion can give your home façade a total chic makeover matte finish just like the way cosmetics can do for your face.
