## **Unpleasant Paint Odour A Thing Of The Past With Singapore's First Odour-Less Paint!**

You no longer need to put up with the awful smell of paint when painting your home with Singapore's first paint formula that has virtually no paint odour. Nippon Paint's breakthrough Odour-less Premium All-in-1 is ideal for people who are sensitive or allergic to paint odour. Gone are the days of putting up with lingering nasty paint smell during and after painting for your home. Parents no longer need to go through the hassle of protecting their children from paint odour by sending them away whenever painting work is carried out.

Commenting on Nippon Paint's latest innovation, Charlie Ong, Senior Manager & Head of Marketing, Nippon Paint, said, "Gone are the days that you have to avoid painting jobs during rainy days as the windows would need to be closed or rushing through the paint job just to get out of the house quickly. Nippon Paint Odour-less Premium All-in-1's unique formula offers consumers a smart alternative when painting their homes. Painting can be a fun activity for the whole family, especially without the fear of paint odour!"

Nippon Paint Odour-less Premium All-in-1 is also designed with the environment in mind. The paint emits near-zero levels of Volatile Organic Content (VOC), an air pollutant hazardous to the environment.

Like Nippon Paint's other premium products, the Odour-less Premium All-in-1 is washable, anti-bacterial and fungus-resistant. Its excellent coverage and hiding power ensures a perfect finish. Available in a variety of long-lasting colours in a classic matt finish, the Odour-less Premium All-in-1 is available at most hardware and paint shops and DIY stores such as Homefix and Selffix in Singapore.
